

ClamAV Guardian

Terms and Conditions

Effective date: [Insert effective date] | Published by 7iNDA

TEMPLATE - NOT LEGAL ADVICE

This document is a general-purpose template drafted for ClamAV Guardian. It is provided as a starting point, not legal advice, and has not been reviewed by a lawyer. Replace the bracketed placeholders below and have it reviewed by a qualified professional before relying on it, especially if you distribute the software commercially or to users in jurisdictions with specific consumer-protection or data-protection requirements (e.g. GDPR, CCPA).

1. Acceptance of Terms

By downloading, installing, or using ClamAV Guardian (the “Software”), you agree to be bound by these Terms and Conditions (“Terms”). If you do not agree, do not install or use the Software.

2. What the Software Is

ClamAV Guardian is a Windows application that provides a graphical interface, a background Windows service, real-time file scanning, quarantine management, and automatic update capabilities built around the open-source ClamAV antivirus engine. ClamAV Guardian is an independent project and is not officially affiliated with or endorsed by the Cisco Talos / ClamAV project.

3. License to Use

Subject to these Terms, you are granted a non-exclusive, non-transferable, revocable license to install and use the Software for personal or internal business purposes. The Software’s source code is made available at its public repository; see the repository’s license file for the terms governing use, modification, and redistribution of the source code itself. The underlying ClamAV engine is separately licensed (GNU General Public License v2) by its respective copyright holders.

4. Automatic Updates

The Software includes a background service that periodically checks for, downloads, and installs updates to itself and to the ClamAV virus definition database automatically, without requiring your manual approval for each update, in order to keep protection current. You may adjust the update check interval in Settings, but disabling updates entirely is not supported, since running an outdated virus scanner provides a false sense of protection.

5. No Warranty

THE SOFTWARE IS PROVIDED “AS IS”, WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. No antivirus software can guarantee detection of all malicious software, and the publisher does not warrant that the Software will detect,

remove, or prevent every threat.

6. Limitation of Liability

To the maximum extent permitted by applicable law, in no event shall 7iNDA or the Software's contributors be liable for any indirect, incidental, special, consequential, or punitive damages, or any loss of data, profits, or business, arising out of or related to your use of or inability to use the Software, even if advised of the possibility of such damages.

7. User Responsibilities

You are responsible for maintaining regular backups of your data, for reviewing quarantined items before permanent deletion, and for exercising your own judgment before restoring a quarantined file. You must have the legal right to install software and grant it real-time access to the files and folders you configure it to watch.

8. Termination

You may stop using the Software at any time by uninstalling it. These Terms remain in effect for as long as you use the Software.

9. Changes to These Terms

These Terms may be updated from time to time. Continued use of the Software after an update constitutes acceptance of the revised Terms.

10. Governing Law

These Terms are governed by the laws of [Insert your jurisdiction / governing law], without regard to its conflict-of-law principles.

11. Contact

Questions about these Terms can be directed to [Insert contact email].
